D-M4 Monte Carlo null distribution for pedigree within-Leiden fraction
WashU (n=310)
observed = 0.945
null mean = 0.840
null 95% CI [0.832, 0.852]
permutation count
within-Leiden-community fraction
CEPH1463 cross-assembler (n=11)
observed = 1.000
null mean = 0.306
null 95% CI [0.091, 0.636]
permutation count
within-Leiden-community fraction
